

My name is **Danielle Looney**. As a proud graduate of Holt High School and lifelong member of the Wentzville community, I am excited to offer my candidacy for the Wentzville School District Board of Education. I am happily married to my husband, Dan, and the proud mother of five children. Having grown up here and chosen to raise my family in Wentzville, I deeply value the strong educational foundation and tight-knit community the Wentzville School District provides.

The Wentzville School District has earned recognition as one of Missouri's fastest-growing districts, while maintaining its reputation as one of the state's top-rated school systems. As our community continues to grow, I've experienced the challenges that come with this rapid expansion. I believe in the essential role our district plays in shaping our community's future, and I am committed to ensuring it remains an asset for generations to come.

Whether or not a family has children enrolled in our schools, the decisions made by the district impact the entire community. I am running for school board to address key issues that will benefit not only our students but all Wentzville residents. Some of my priorities include:

#### Fiscal Responsibility:

I believe it is essential for the district to use taxpayer funds wisely, ensuring that every dollar spent directly contributes to providing high-quality education. As our district continues to grow, it's crucial that we plan for the future—anticipating both the educational needs of a larger student body and the infrastructure required to support that growth. I will work with the Board and district leadership to prioritize responsible spending, improve budget transparency, and ensure that resources are allocated efficiently to support both student learning and staff development. By planning strategically for the future, we can ensure our district remains financially sound while meeting the evolving needs of our community.

#### Transportation:

As our district grows, so do the challenges with transportation. Many families have faced disruptions due to bus delays and staffing shortages, impacting both working parents and student attendance. I will advocate for solutions to streamline transportation, improve reliability, and ensure the needs of families are met.

#### Late Start Days:

Late start days have proven difficult for many families. As a board member, I will work toward eliminating these disruptions while supporting our teachers with effective professional development and planning time that benefits both them and our students.

#### Excellence in Education:

Every child deserves a top-quality education that prepares them for future success. I am dedicated to supporting our educators with the tools, resources, and training they need to deliver an exceptional education. As a board member, I will ensure that our curriculum is robust and prepares students for success beyond high school.

#### Support for Educators and Staff:

Teachers and staff are the backbone of our district, and they deserve more than just support in name. I will work to eliminate pay disparities, provide better resources, and ensure that teachers and staff have ample planning time to deliver their best work. By actively listening to and supporting our educators, we can create an environment where both staff and students thrive.

Having attended numerous Board meetings over the years, I've seen firsthand the challenges we face, and I am eager to take an active role in making the Wentzville School District an even stronger community. With your support, I will work tirelessly to ensure that every student has the opportunity to succeed in a safe, supportive, and high-quality educational environment.

I humbly ask for your vote on April 8th. Thank you for placing your trust in me.
